Sir:

In its petition decision of 15 September, 2008, a copy of which is attached hereto as Exhibit A, the Office rejected Applicant's petition to revive the above identified patent application, without prejudice, asserting that Applicants petition was deficient for failing to provide "the master docket for the firm" as suggested by MPEP § 711.03(c). Applicant respectfully requests reconsideration of this denial.

Description of the Issue

On July 6, 2006, Applicant's counsel filed two patent applications for Applicant. These applications were assigned Serial Numbers 10/585,389 and 10/585,468. On March 4th, 2008, not having received correspondence from the United States Patent and Trademark Office with respect to either file, Applicant's counsel submitted written status requests pursuant to MPEP §203.08, noting that more than 19 months had passed since the filing of the applications, and that no correspondence had been received. Copies of these status requests are attached hereto as Exhibit B.

On May 15, 2008, a Notification of Missing Requirements was received in co-pending application Ser. No. 10/585,468. A copy of this Notice is attached hereto as Exhibit C.

In an undated letter received on June 9, 2008, a response was received to the status request regarding application Ser. No. 10/585,389, stating that a Notice to File Missing Parts had issued on November 13, 2007. A copy of this response is attached hereto as Exhibit D. Applicant's counsel immediately requested a copy of the Notice to File Missing Parts, which was received on June 10, 2008. A copy of this correspondence is attached hereto as Exhibit E. Based on the maximum number of possible extensions, a response would have been due for the Notice on April 13, 2008, six weeks after Applicant's status request, but also 6 weeks before the Office responded to Applicant's status request.

On June 13, 2008, Applicant's counsel submitted a Petition to Withdraw Holding of Abandonment – Office Communication Not Received, a copy of which is attached hereto as Exhibit F. As noted above, on September 15, 2008, the Office rejected this Petition, without prejudice, asserting that Applicant had failed to meet its burden, as it had submitted a docket report showing docketing for the file in question, rather than docketing for all files handled by Applicant's counsel.

1. Rejection of Applicant's Petition was Improper

In its Petition filed on June 13, 2008, four days after receiving notification that the instant application was being abandoned by the Office, Applicant's counsel provided the office with a declaration stating that the office action was not received by Applicant's counsel, that a search of the records and file wrapper associated with the application had been conducted and that no office action was found, and a copy of the docket report for the instant application showing that a status report had been requested on March 4, 2008 in view of the failure of Applicant's counsel to received any communications from the Office, as well as the absence of any docketing entry for the purportedly mailed office action.

In rejecting Applicant's petition, the Office asserts that Applicant failed to meet its burden of demonstrating that it did not receive the purportedly mailed office action, since Applicant's counsel did not include a copy of the master docket for the entire Firm. Applicant's counsel notes that MPEP §711.03 I.A. states that Applicant "should" submit a master docket, not that it is mandatory. Applicant further notes that compliance with the request that Applicant's counsel submit a Master Docket potentially requires Applicant's counsel to disclose docketing information related to applications which are still maintained in confidence by the Office for Applicant's other clients, and thus purportedly requires Applicant's counsel to breach its duty of confidentiality with respect to those other clients.

In view of the clear and large volume of evidence clearly demonstrating that Applicant's counsel did not receive the action purportedly mailed on September 13, 2007, Applicant's counsel believes that the Office mis-applied the standard for the petition to revive, and erroneously seeks to require Applicant's counsel to breach its duty of confidence with respect to Applicant's counsel's other clients, and that the previous dismissal of the petition must therefore be withdrawn.

2. Applicant herein Submits a Master Docket Report

Notwithstanding, Applicant herein further submits as Exhibit G a copy of a docket report from Applicant's law firm, showing all docketed patent responses due for the period of November 12 through November 14, 2007. The Notice to File Missing Parts had a deadline of

November 13, 2007, and as evidenced by the absence of an entry for the notice to File Missing Parts, Applicant did not receive said Notice. Applicant also provides herewith a copy of the outstanding declaration attached hereto as Exhibit H.

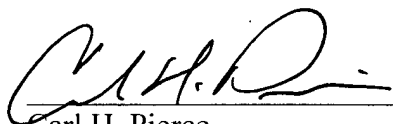

Furthermore, the previously provided docket sheet for the Application at issue documented not only the absence of a docketing entry for the status request to the Patent and Trademark Office sent by Applicant's counsel on March 4, 2008, prior to expiration of the period within which Applicant could have responded to the missing Notice, and accordingly the record clearly demonstrates that the action was not received by Applicant's counsel.

In consideration of these submissions, it is respectfully submitted that the holding of abandonment be withdrawn.

The Commissioner is hereby authorized to charge any fees, which may be required by this paper, to Deposit Account No. 18-0586.

Int. Filing Date: 06 January 2005 :
Priority Date: 07 January 2004 :
Attorney's Docket No.: 04-40395-US :
For: WHEELS OF UNITARY CONSTRUCTION :
AND METHOD OF MAKING SAME :

This decision is in response to applicants' "PETITION TO WITHDRAW HOLDING OF ABANDONMENT-OFFICE COMMUNICATION NOT RECEIVED," which has properly been treated as a petition under 37 CFR 1.181, filed in the United States Patent and Trademark Office (USPTO) on 13 June 2008.

BACKGROUND

On 06 January 2005, applicant filed international application PCT/IN2005/000006, which designated the United States and claimed a priority date of 07 January 2004. A copy of the international application was communicated to the United States Patent and Trademark Office from the International Bureau on 21 July 2005. The thirty-month period for paying the basic national fee in the United States expired at midnight on 07 July 2006.

On 06 July 2006, applicant filed a submission for entry into the national stage in the United States which was accompanied by, *inter alia*, the U.S. Basic National Fee.

On 13 September 2007, the United States Designated/Elected Office (DO/EO/US) mailed a NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371 (FORM PCT/DO/EO/905) indicating, *inter alia*, that an oath or declaration of the inventor in compliance with 37 CFR 1.497(a)-(b) was required.

On 13 June 2008, applicants filed the instant petition under 37 CFR 1.181.

DISCUSSION

If applicants can establish nonreceipt of the NOTIFICATION OF MISSING REQUIREMENTS, then the application was never abandoned. In such case, the holding of abandonment will be withdrawn pursuant to 37 CFR 1.181. See MPEP § 711.03(c), para. I.A. The showing must include: (1) a statement by the practitioner that the Office action was not received by the practitioner; (2) a statement attesting that a search of the file jacket and docket records indicates that the Office action was not received; and (3) a copy of the docket record where the non-received Office action would have been entered had it been received (the docket record must also be referenced in practitioner's statement).

Items (1) and (2) have been met.

As to item (3), MPEP § 711.03(c), para. I.A. states that a "copy of the practitioner's record(s) required to show non-receipt of the Office action should include the master docket for the firm. That is, if a three month period for reply was set in the nonreceived Office action, a copy of the master docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action." The docket report provided does not appear to be a master docket for the firm but rather the docket records for the instant application.

CONCLUSION

For the reasons set forth above, the petition under 37 CFR 1.181 is **DISMISSED** without prejudice.

The application is abandoned as to the United States of America for failure to timely file a proper reply to the NOTIFICATION OF MISSING REQUIREMENTS mailed 13 September 2007.

Any further correspondence with respect to this matter may be filed electronically via EFS-Web or if mailed should be addressed to Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Dear Mr. Kumar:

This is in response to your communication received 02 June 2008 requesting status of the U.S. national stage application 10/585,389 filed July 6, 2006 from the international application PCT/ES05/00327. The U.S. Designated/Elected Office (DO/EO/US) presently has a 20 - 25 months backlog in processing Notification of Missing Requirements and Filing Receipts for all filed U.S. national stage applications. USPTO records show that a "Notification of Missing Requirements" (Form PCT/DO/EO/905) was mailed 13 September 2007 to the attention of Louis M. Heidelberger. There is no record of a response to the Notification of Missing Requirements received by DO/EO/US.

**PETITION TO WITHDRAW HOLDING OF ABANDONMENT – OFFICE
COMMUNICATION NOT RECEIVED**

Sir:

Further to the undersigned Attorney's telephone conversation of today with Officer Daniel Stemmer from the PCT Legal Office, this is a petition to withdraw the holding of abandonment in the above case on the basis that the Notification of Missing Requirements (herein referred to as "the Office Communication" or "this Communication") forming the basis of the abandonment was not received.

I hereby state that the Office Communication indicated, as mailed on September 13, 2007, was not received and that search of the file jacket and the docket records indicates that the Office Communication was not received.

A copy of the docket record where the non-received Office Communication would have been entered had it been received and docketed is attached herewith (Exhibit A). A two month period for reply was set in the non-received Office Communication. The copy of the docket report shows all replies docketed for a date at least two months from September 13, 2007, the mail date of the non-received Office Communication, thereby serving as documentary proof non-receipt of the Office Communication.

As additional evidence of non-receipt of the Office Communication, Applicant also attaches herewith a copy of the Status Letter dated March 4, 2008 (Exhibit B). Applicant

became aware of the existence of the non-received Office Communication only after the receipt of the response letter dated June 4, 2008 from the PCT Legal Office (Exhibit C). Soon after the receipt of the response letter from the PCT Legal Office, a request for the non-received Office Communication was made to and the Office Communication was transmitted by Officer Mark Ragland (Exhibit D).

In consideration of these submissions, it is respectfully submitted that the holding of abandonment be withdrawn.

The Commissioner is hereby authorized to charge any fees, which may be required by this paper, to Deposit Account No. 18-0586.

Respectfully submitted,

Date: June 13, 2008

Dear Mr. Kumar:

This is in response to your communication received 02 June 2008 requesting status of the U.S. national stage application 10/585,389 filed July 6, 2006 from the international application PCT/ES05/00327. The U.S. Designated/Elected Office (DO/EO/US) presently has a 20 - 25 months backlog in processing Notification of Missing Requirements and Filing Receipts for all filed U.S. national stage applications. USPTO records show that a "Notification of Missing Requirements" (Form PCT/DO/EO/905) was mailed 13 September 2007 to the attention of Louis M. Heidelberger. There is no record of a response to the Notification of Missing Requirements received by DO/EO/US.
